

2. Our Teacher/Coach Partnership

Dear Parent/Coach,

Hi again.

The Math Enhancement Program will be best for your student IF the student has both a great Teacher and a great Coach.

Clearly, I am the Teacher via the 28 Tutorial Videos and Notes and Exercises and Forum.

But, I can't really be a Coach since this requires a personal relationship and continual contact with your student.

Fortunately, the Parent or someone else close to the student can be a great coach, and does not have to know any Math.

I explain all of this in some books I have written.

You may go to <https://goldenrulemath.com/> and read one of four books.

Each book has two Chapters. *Teacher and Coach*, and *How to be a Great Math Coach*.

Coaching Math is somewhat different than coaching a sport and the Math Coach can probably learn some new things from the later Chapter.

So, I urge you to read these two chapters, and then be sure your student has a great Coach.

There is an older book I wrote which also has videos on these two chapters: Go to my website www.craighane.com and click on the *How and Why ...* link to get to this book. Chapters 7 and 8, Videos or PDFs.

Eventually, your student will also want to learn to be a great coach too.

Check the P.S. below for a link to all my Messages to you, PDFs and Videos.

Golden Rule!

Craig
