

9. STEM Math Tiers 4,5,6

Dear Parent/Coach,

Is your student interested in Science or Engineering or any STEM subject?

If Yes, this will be the most important of my Messages to you.

Why?

Wolfram Alpha has revolutionized STEM Math since 2009.

<https://www.wolframalpha.com/>

This is why 21st Century STEM Math Education is so different than 20th Century STEM Math Education.

So, what Math should your student be taught in high school?

See the Topics in Tiers 4,5 and 6.

Note; Wolfram Alpha is introduced in Lesson A5 and then used from that point forward.

This is all explained in the Golden Rule book for STEM Students you may read for free from the PDF at: <https://goldenrulemath.com/stem/>

Or, <https://homeschoolertoday.com/superior/> Chapter 6.

You will learn a bit more from the Video I make for this Message. See the P.S. below to get it.

We live in a wonderful time with amazing technologies, which can make all of our lives great if we master them and use them.

The next Message will tell you about a wonderful new Math Tool if you have a STEM student.

Hope our/your student is doing well.

Golden Rule!

Craig
