

Beyond practical math, no college

Dear name,

Once you have finished this Practical Math program you will be ready to join the military or enter an apprentice program or a technical training school if you're interested in a kind of technical trade or career.

Tier 3 is to prepare students for college exams like the SAT.

Much of the math in Tier 3 will not be of great value to you in the future if you are not going to college.

There are a few topics in Part 2 of Tier 3 that would benefit you.

So, I suggest you might want to take Part 2 in Tier 3.

In the next two emails I'll discuss going to college and STEM Math

Keep up your good work.
