

Congratulations from Dr Del.

Dear NAME,

Congratulations!

I Believe that this Practical Math program will be of great value to you, as it has been to hundreds of my other students.

I'm Dr Del and you'll certainly get to know me from the many Tutorial Videos you'll be watching as you learn practical math.

In addition I will be sending you emails to help you too.

Some will be designed to help you with this program as you master practical mathematics.

Some will give you some free gifts.

Some will tell you some stories that you might find interesting and perhaps inspirational.

Debbie Goodman is our Program Director and for any technical questions you have, just contact Debbie.

If you have any math questions go to our Forum and they will be answered.

And at the end of the email series I will tell you about a potential very good business opportunity for you once you finish this program.

Enjoy and learn practical math

If you will study 30 - 60 minutes per day for four days per week on average you should finish less than a semester (three months),

Talk soon.

Craig Hane, Ph.D. aka Dr. Del
