

A Math Coach

Dear name

Some students need a Coach as well as a Teacher.

I am yourTeacher.

If you have a Coach that is wonderful, otherwise you will need to coach yourself.

Here's how a math Coach should do it.

I explain it in a book I have written that you can have for free by simply going to:  
<https://homeschoolertoday.com/superior/>

Chapters 7 and 8 and Addendum 3.

You can read them by downloading the PDF or just listen to the video.

Indeed, learning to coach a student is also a very valuable skill and so you'll be developing this as a bonus to learning practical math.

Keep up your good work.
