

Dr Del's latest two books

Dear Name,

First I wrote a book published on Amazon titled *Golden Rule Math for all God's Children*.

It explains what modern 21st century math education should be for all students. It cost \$29 on Amazon

My latest book is *How and Why Public School Math is Destroying the USA* on Amazon for \$4.80.

If by chance you are going to a public school or even a private school you should find this book very enlightening.

You may have a free PDF copies of these books by going to [craighane.com/book](http://craighane.com/book)

These two books will thoroughly explain what is involved in math education today and how you can get a great 21st Century math education very inexpensively in terms of both time and money.

Indeed, your time is probably even worth more than the money you'll save.

Enjoy

Also, feel free to share these books with anybody you like who is interested in math education.
