

Message for any Teenage Student to improve their Math Education.

Actions have Consequences. A Rule we all have to live by.

Action: Master the TI-30Xa Scientific Calculator (about \$10) in a couple of weeks Online at Home for \$29, or even for Free . Quick! - Easy! - Fun!

Consequences: You will now be able to learn Math like Algebra, Geometry, Trigonometry and MUCH EASIER no matter what school your are going to.

To learn how to take this Action go to: www.TriadMathInc.com/teen

There are four videos there. About an hours worth total from Dr. Del.

The first video tells you how to take the Action described above.

The second video explains how you can learn and master Practical Algebra, Geometry, and Trigonometry, All in about One Semester, Easy and Fun, for less than \$200. Amazing 21st Century Math Program, Online at Home!

Then you will be ready for the Military or to pursue a Technical Career and you will know more Math than 95% of USA adults and high school grads.

The third video down is only 8 minutes and will explain how Extrinsic Motivators and Convex Options will have a profound impact on your future life, like it or not. This goes way beyond Math and applies to many things.

Dr. Del learned this painfully over many years and at the cost of several millions of dollars. He's pleased to share this Wisdom with you for free.

The fourth video down is a Coaching Video about *Learning to Learn* and again applies to many things including Math. This is One ingredient of Success in anything you choose to do or pursue in your future.

So, I invite you to invest about an hour of your time studying these four videos.

THEN, if you want to take the Action, I will give you a \$5 book to make the \$29 Program you will buy much better, and you may keep the book even if you choose to get your \$29 back in 30 days, No Questions Asked, and, thus get the training for Free. Believe it or not! I guarantee it!

This is an amazing Convex Option.

You'll learn about the Extrinsic Motivator for this Offer in the second video down.
