

# Dr. Del's "Thank God!" Story

Dr. Del, aka, Craig Hane, Ph.D. (Math)

**"God works in marvelous ways!"  
says Dr. Del**

**"When I was 4 years old, God provided me with a fabulous teacher who taught me how to Learn and Apply Practical Math, my Uncle Jack Davis, a 60-year-old Barber and Builder, at the beginning of World War II.**

**First he taught me how to count in Base 10 using Cheerios and Pennies and Dimes, Later Practical Geometry. My Dad enrolled me in the First Grade in a four room school with eight grades at Putnamville, Indiana, when I was only five years old.**

**I was the youngest kid in my class, and the 'dumbest' in coloring, singing, and skipping. Not Fun!**

**Then, while I was 5 years old, my wonderful first grade teacher, Miss Bernice Lewis, taught me how to Teach Math, (Counting in Base Ten) that My Uncle Jack had taught me, to my fellow students.**

**She was amazed! I was thrilled!**

**Now I was considered the "smartest" kid in the first grade. But, Not really. I was just the "luckiest" to have had an Uncle Jack. Remember this was WW2, interesting times to say the least!**

**From that time forward I have been Learning and Applying and Teaching Math, also empowered by two other marvelous teachers God provided, Miss Madonna O'Hair (Geometry, Greencastle High School) and Dr Clint Gass (Algebra, DePauw University in Greencastle, Indiana).**

**Truly amazing what God provided me that I can now provide You.**

**I must say, the Math Education God gave me has resulted in a wonderful life and has empowered many Adventures and the Acquisition of many Wisdom Tools and all the "money" I've ever needed for Family and Friends. Now it is time for me to Pass It Forward to You!"**

**SO Now, as a member of the Triad Math Army You can have access to all of these marvelous Math and Wisdom tools for about \$1 per day, and You can make some money by sharing what you learn with other people who then join the TMA.**
