

## **Dr. Del's Communicator Associate DDCA**

An ORG is any group with Teenagers (13 – 17) and/or Young Adults ( 18 – ) Members and that would like to improve the lives of these Members.

Triad Math, Inc., TMI, will give a Gift to the ORG for three Members:

1. A young student who struggles with Math
2. A young student who is good at Math
3. An advanced student who is good at Math in is interested in STEM
4. An Adult who wants to Improve his/her Life

Three Lifetime Memberships in the Triad Math Tribe, TMT  
A SupraComputer to the STEM student once s/he reaches Tier 4.

The ORG will provide a Coach who will be trained and helped by Dr. Del.

The DDCA will contact ORGs and “educate” them about this opportunity and determine IF they Qualify for this Gift.

IF so, then an ORG will finalize the deal with Dr. Del.,

**The DDCA is NOT a salesperson.**

Most ORGs will not qualify for some reason.

The DDCA will usually have to talk with several leaders in the ORG to determine if the ORG is qualified. Often take ten or more calls.

For the first few weeks the DDCA will work closely with Dr. Del until the DDCA can do the job well. You ask questions and answer questions.

Ultimately, the DDCA will receive a 20% Commission on all future purchases the ORG makes. After all, once the three students do well with the Math the ORG should purchase the Math for many more of its Members. Over time an ORG will purchase a lot.

In the beginning, the DDCA will receive \$15/Hour CASH as an Advance against future Commissions. IF the DDCA is doing this will increase to \$20/Hour CASH.

We anticipate a DDCA will earn about \$50,000 the first year and then \$100,000/Year or MORE thereafter. There is No Upper Limit.

The DDCA's number of customers will grow exponentially.

The DDCA should be able to work six hours per day five days per week.

But, it is Flexible, and the DDCA will work from anywhere.

Mostly, with Email, Phone and Zoom.

Records will be in a TMI Database.
